

The Staff at HGCCC.....

The staff at our center is the best around! We have some that are here every day and others that just help out on breaks and days off. Their job doesn't just mean watching children, no way. They bandage ouchies, listen to issues, solve problems, help with homework, clean up messes and even entertain. Its a tough job but this bunch makes it look effortless. Whether it's donning grinch pants, crawling into a tree trunk, riding a three year old bike , shoveling snow in their pjs, coming to work in a Halloween costume or wearing a hula skirt on their head, they are truly dedicated and are never worried about getting right in the mix and looking silly as long it's in the name of making our children happy! Check out our super fantastic and utterly amazing staff.....
